Policy and Terms

***Autohardware ships same day,
quality products at fair prices.***

We stock all items found in this catalog.

Terms:

- Net 30 (with approved credit). COD acceptable.

Major Credit Cards Accepted:

Toll Free Lines:

- Autohardware encourages you to call us toll free for orders, stock checks, prices, or quotes.
- Autohardware is a service business and we encourage your interest.

Service:

- Order before 3:00 p.m. We ship it all, we ship it today.

Delivery:

- FOB our dock.

Returns:

- Stock items with our invoice number acceptable.
- No restock charge. Merchandise credit only.

Special Orders:

- Non-stock items require our authorization and will carry a restock charge based on our ability to resell/return.

Damages or shortages in shipments en route:

- Our responsibility does not extend beyond our plant.
- Examine all shipments carefully before the delivery carrier leaves your premises.
- Where damage or shortage has occurred, make the driver aware of the problem and have the freight bill (truck freight shipments) signed by the driver.
- Parcel post damages are to be taken up with the driver making the delivery.
- Concealed damage claims must be made within forty-eight hours.
- In all instances we will attempt to assist you in securing adjustment providing you follow the above recommendations.

Nitro Coated Drill Bits

Nitro Coated Drillco Drill Bits

Manufactured from a premium grade of M-7 molybdenum high speed steel. The Nitro Heavy Duty 135° Split Point Drill with Nitride surface treatment, that gives a hard, protective layer to the drill (increase hardness without increasing brittleness), which is measurably harder than high speed steel. Body and clearance are gold and black surface treated for maximum lubricity. Recommended for use in Aluminum Alloys, Stainless Steel, Titanium Alloys and other hard alloy steel drilling.

Sold in Pack Quantities:

Rivet Guns / Installation Tools

Manual Riveter

This tool exerts tremendous pulling power for large rivets and locks them into place.

CXGH-250

- The most powerful, heavy duty manual riveter available.
- Designed with a durable cast aluminum body with shock resistant handles and comfortable grips.
- Equipped with nosepieces to instal rivets in 3/32" - 1/4" diameters in all metals.
- Use this tool to set 1/4" T-Rivets and Lok-bolts, 3/16" and 1/4" Monobolts.

Squeezer Guns for Buck Rivets

Call for your needs.

CXHS-310 Rivet Head Shaver

Used in conjunction with aluminum shaveable head rivets, both 3/16" and 1/4" diameter.

CXGH-304-E

Our most powerful pneumatic hydraulic riveter.

- Traction pulling power of 4200 lbs, it easily sets structural rivets such as:
 - Magna-Lock,[®]
 - Hemlock,[®]
 - Monobolts,[®]
 - Lok-Bolts,
 - Q-Loks.[™]
- Its long stroke (7/8") enables the tool to set most rivets in 1 actuation.
- Comes equipped with nosepieces to install 3/16" and 1/4" standard rivets, 3/16" and 1/4" Monobolts and 3/16" and 1/4" structural rivets.

CXGH-M4

This heavy-duty air/hydraulic riveter with its newly designed steel forged head can hold up under demanding continuous use.

The steel forged head allows for continuous full operating power and less internal wear.

- The M4 can set rivets from 3/32" through 1/4" diameters in all alloys.
- The M4 has the capability of setting structural rivets.
- In addition to the standard size blind rivets, it can also set 3/16" and 1/4" Klik-Split, Klik-Lock and other structural blind rivets.
- The M4 is supplied with 3/32", 5/32", 3/16" and 1/4" standard nose pieces, service tools, swivel inlet air coupler and mandrel collection bottle.
- Recommended airline pressure is 85-95 PSI.
- Weight 6.2 lbs.

CXGH-M3

This heavy duty air/hydraulic riveter with its newly designed machine forged head can hold under demanding continuous use. The steel forged head allows for continuous operating power and less internal wear. The M-3 will set blind rivets from 1/8" diameter in all alloys up to 3/16". Included with the M-3 are the standard 1/8", 5/32", and 3/16" nose pieces, a service wrench, swivel inlet air coupler and a mandrel collection bottle. The recommended airline pressure is 85-95 PSI.

APEX®

Quick Release Chucks

- Convert male square drive power tools to female hex drive.
- Will accommodate hex bits, nut setters, extensions, etc.
- Quick-change feature is particularly useful on production operations where various types of tools with the same size hex drive are used and must be changed frequently.
- Chucks with female square drives and hex openings larger than those shown in specifications are available.

Complete information will be furnished on request.

Trailer Liner Fasteners

Self Drilling Plywood Liner Screw

Use APEX 440TX25

- Drill screw with Torx® Drive for wall liner installation.
- Piloted Torx recess drives the drill screw straight and true eliminating the drilling.
- "Dril-Kwik" seats fast, flush and solid.
- Also available with cam grip adhesive.

Part #	Size	Finish
TORWAF1	10 x 16 x 1	Zinc
TORWAF1.25	10 x 16 x 1 1/4	Zinc
TORWAF1.50	10 x 16 x 1 1/2	Zinc

Self Drilling Plywood Liner Screw

Use Apex Square Bit # 950-2

- "QUADREX" accepts either #2 Phillips or #2 Square Head.

Part #	Size	Finish
TSQR.75	10-16-x 3/4"	yellow zinc
TSQR1	10-16-x 1"	yellow zinc
TSQR1.25	10-16-x 1 1/4"	yellow zinc

Tap-It® Nylon Rivets

Truss Head (Mushroom)

- To install liners in dry cargo, insulated vans, and reefers.
- For kick plates, signs, canvas vents, license plates, reflectors, etc.

PART #	SIZE	DIAMETER
TAP.75	.75"	.25
TAP1	1"	.25
TAP1.5	1.5"	.25
TAP2.0	2"	.25
TAP3.0	3"	.25

Panel Screws, Double Square Recess Truss Head

Use Apex Square Bit # 950-2

Part #	Size	Finish
TSQR-1034	10-16-x 3/4"	zinc
TSQR-1034-WHT	10-16-x 3/4"	white

Screwnails

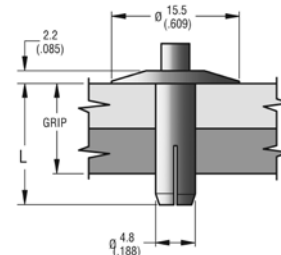

- Large round head, steel hardened screwnails for fastening truck and trailer plywood lining to steel tubing uprights.
- 9/32" cupped oval head.

SCREWNAILS	13" x 1"	Bright Zinc

CXGH-304-E

Our most powerful pneumatic hydraulic riveter.

- Traction pulling power of 4200 lbs, it easily sets structural rivets such as:
 - Magna-Lok®,
 - Hemlock®,
 - Monobolts®,
 - Lok-Bolts,
 - Q-Loks™

- Its long stroke (7/8") enables the tool to set most rivets in 1 actuation.
- Comes equipped with nosepieces to install 3/16" and 1/4" standard rivets, 3/16" and 1/4" Monobolts and 3/16" and 1/4" structural rivets.

Closed-End Rivets / Shavehead Rivets

Closed-End Rivets

Aluminum Rivet Coated Steel Mandrel
IFI Grade 30

- Moisture-resistant due to tight seal
- Greater shear and tensile strength
- Mandrel is retained 100% of the time

Hinge Terminology

Marlboro
MANUFACTURING, INC.

Autohardware proudly stocks Marlboro Manufacturing continuous hinges and has done so for over 30 years. Marlboro is an industry leader and their hinges are suitable for a variety of applications. Autohardware stocks steel, aluminum, and stainless steel hinges in 6 and 8 foot lengths and replenishes supply weekly from Marlboro. Please feel free to contact us with questions or quote requests for you specific needs.

PLAIN TYPE

ONE LEAF HALF SWAGED

One leaf swaged one half the pin diameter.

ONE LEAF FULL SWAGED

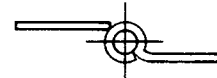

One leaf swaged equal to the pin diameter and both leaves parallel when in a closed position.

BOTH LEAVES HALF SWAGED

Both leaves swaged approximately one half the pin diameter.

REVERSE SWAGED

One leaf swaged to simulate reverse assembly. Leaves will not close to a parallel position.

"D" Ring Center Controls / Folding "T" Handles

Non-Locking "D" Ring Handle

- Non-Locking flush handle with offset "D" ring for ease of grip.
- 5/16" square shank for use with internal center control.
- Specify S for small cup. Approximately 4-7/8" diameter.
- Specify L for large cup. Approximately 6-1/8" diameter.

AH-79 Polished Stainless Finish Zinc Finish Available

Locking "D" Ring Handle

- Locking version of #79 flush handle with offset "D" ring for ease of grip.
- Approximately 4-7/8" diameter. Specify S for small cup.
- 5/16" square shaft for use with 6011 or 107 center case.
- Specify L for large cup. Approximately 6-1/16" diameter.

AH-279-L-SS Large Cup Polished Stainless Finish

AH-279-S-SS Small Cup Polished Stainless Finish

Zinc Finish available upon request.

Locking "D" Ring Lock

- Locking "D" ring with cam in right or left hand versions.

AH-2101 1 pt Polished Stainless Finish

AH-2102 2 pt. center control only Polished Stainless Finish

AH-2103 3 pt. center control only Polished Stainless Finish

- #2102 and #2103 locks are designed for use with #105 rods and rod guides and 90 series bolts.
- Specify S for small cup - approximately 5-3/4" diameter.
- Specify L for large cup - approximately 7-1/16" diameter.

Zinc Finish available upon request.

"D" Ring Center Control

E9010-SS-R Single Point Key Locking

E9020-SS-UR 2 Point Key Locking

E9030-SS-U-R 3 point key locking. Specify Right or Left.

Finish: stainless steel

E9011-SS-R Single Point Non-Locking

E9021-SS-R 2 Point Non-Locking

9031-SS-R 3 Point Non-Locking

Finish: stainless steel

Non-Locking Folding "T" Handle

- Non-locking "T" handle with cam in right or left hand versions.
- Can add #90 end bolt for dead bolt type latching system. Pan is 4-3/4" x 3-3/4."

AH-401-BPC 1 Point Black Powder Coated

Non-Locking Folding "T" Handle

- Same as #401 but without cam on back. For non-locking applications where no lock or segregated key cylinders (DL-20) are required.
- Designed for use with C14 cam or 105 & 107 internal center controls.
- Shank is 5/16" square. Pan is 4-3/4" x 3-3/4."

AH-479 "T" Handle Polished Stainless or Zinc

Folding "T" Handles / Paddle Latches

Locking Folding "T" Handle

- Same as #479 except key locks.
- Also uses 105 & 107 internal center case.

AH-2479 Polished Stainless or Zinc Finish

Locking Folding "T" Lock

- Locking "T" handle with cam in right or left hand versions.

AH-2401 1 Point Polished Stainless or Zinc

AH-2402 2 Pt. Center Control Only Polished Stainless or Zinc

AH-2403 3 Pt. Center Control Only Polished Stainless or Zinc

- #2402 and #2403 locks are designed for use with 105 rods and rod guides and #90 bolts.
- Approximate length, 4-3/4."

Heavy Duty Flush Lock

- More ruggedly built for extra life than standard flush lock.
- Bolt cover is riveted rather than welded for extra support.
- Extended bolt cover gives extra support to latch and end bolt.

CHC-2114-A-PL Keyed LL11 Plain Finish

Flush Paddle Handle Latches

- Rust proofed coated on all formed parts of standard model.
- Stainless steel springs
- Mounts in cut out 3-3/8" x 4-5/8."

Handles / Heavy Duty Lock Kits

Cam Action Side Door Locks

- All steel zinc plated construction.
- Supplied without pipe.
- Hinges supplied with non removable pin for maximum security.

P257	Heavy Duty
P157	Economy Same As P257 Except Light Duty Handle and Hasp Assembly

Anti Rack Door Lock

- Designed for container, piggyback, and trailer use.
- Also for van doors (as a single lock), or refrigerated units.
- Easy to install, permits the use of "standard" O.D. structural tubing.
- No costly, time-consuming on job fitting.
- Steel, wedge-type, anti-rack cams and keepers lock assembly tight and provide positive anti-rack control.
- Over-the-seal or door-edge bearing back plate construction for added strength.
- Flush mount construction.
- Frost-breaking action.
- Stamped steel handle, seal plate and seal pin.
- Less than 2" total projection of lock.
- 1/2" diameter padlock or seal eye.

E1969	
E1969-02	Cams
E1969-01	Keepers

Adjustable Handle

- A popular option for the 172-173 series locks.
- Handle is adjustable by simply turning two set screws, making a tighter seal and preventing loss of refrigeration.
- Length center of rod to end of handle, 13-1/4."

P172-101

Cups

- Malleable iron
- Cadmium plated.
- 6" Long
- 1-13/16" high.

P258-220

P258-222

P258-220 Bottom Narrow Cups in Right Hand Application

P258-222 Top Narrow Cups in Right Hand Application

Reverse Parts for Left Hand Application

Wide Cups

- Malleable iron
- Cadmium plated.
- 5" long by 1-15/16" wide by 1-5/8" hi
- Universal for top or bottom.

P258-201

Lugs

- Malleable iron
- Cadmium plated.
- 3" extension from pipe finger.
- 1" wide x 3" long

P258-202 Top Lug in Right Hand Application

P258-210 Bottom Lug in Right Hand Application

Reverse Parts for Left Hand Application

Long Lugs

- Used with 172-173 series when body has a wider header at top or bottom and requires a longer lug to anchor securely to keeper.
- Part #'s listed apply to right hand application.

P172-213 Top Lug 3-1/2" Long

P172-214 Bottom Lug 3-1/2" Long

Gas Springs / Door Checks and Props / Leg Brace Kit

Gas Spring

- The gas spring is a sealed, pneumatic cylinder which imparts force into a system.
- The device has been termed a "gas spring" because it's easily compared to mechanical, compression-type spring/damper systems.
- Utilizing a factory-set gas pressure to exert force, the gas spring is essentially linear and repeatable and does not vary significantly with the stroke.
- In addition to these unique characteristics, the gas spring incorporates a self-regulating device which allows a controlled rate of extension. Thus, the gas spring behaves more like a non-fatiguing spring/damper system from a conventional spring.
- To the designer, the gas spring offers ideal weight lifting, lowering, and counterbalancing capabilities, and freedom from sudden, catastrophic failure.
- Safety and convenience are provided to customer specifications for dampening, controlled compression, and cushioned end motion.
- Available with hardened plastic or metal ends.

Spring Ratings

POUND PART #	EXTENDED RATING	EXTENDED LENGTH	CLOSED LENGTH	FITTING
PGSP1115	10-150	9.6"	6.45"	10 MM

Rope Rings / Cargo Tie Downs

Recessed Rope Ring

- For use with 1/4" plywood.
- Made of 16 gauge steel, bright zinc plated.
- Solid one piece construction dish design assures strong retention.
- 1/4" diameter D-Ring.
- Measures 3-1/2" in diameter.
- Has two mounting holes for 1/4" screws.

P701

P701-F

P701	Recess Mount	Zinc Finish
P701-F	With Spacer Ring for Flush Mount	Zinc Finish

Recessed Rope Ring

- For use with 3/8" plywood.
- Pan recessed 3/8" to allow mounting directly to truck or trailer body cross members.
- Overall length, 5."
- Overall width, 3-3/8."
- Depth, 1/2."
- Three mounting holes countersunk for 1/4" screws.
- Also available in stainless steel.

P601	Recess Mount	Zinc Finish
-------------	--------------	-------------

Cargo Tie Down

- Heavy duty cargo tie down with 3/4" ring.
- Ring rotates a full 360° for best tensioning position in use.
- 6000 lb. pull capacity.
- Overall diameter is 6-1/8".
- 4-1/2" inset diameter.

AH-10-40	Heavy Duty Cargo Tie Down with 3/4" Ring
-----------------	--

Cargo Tie Down

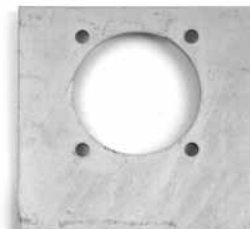

- Overall length, 4."
- Overall width, 3-3/4."
- Casing is of 1" thick material behind flange.
- Inside diameter of flange 1-1/2."
- Holes for #12 F.H. attachment screws.
- Approximately 4000 lb. capacity.
- Mounting specs apply.

Cargo Tie Downs

Cargo Tie Down

- 1/4" Ring with two hole clamp.
- Capacity rating of 1,500 lbs.

AH-300-M

Zinc Finish

Cargo Tie Down

- Steel construction ring and clamp.

AH-300-C

Zinc Finish

Economy Cargo Tie Down

- Economy rope ring, 1-1/2" x 1-1/2"
- Surface mount rope ring and mounting strap.
- Bracket of 10 gauge steel.
- "D" Ring of .225 diameter steel.

P700

Zinc Finish

Light Duty Cargo Tie Down

- Light duty tie down and clamp
- Clamp measures approximately 1-3/8" hole to hole in length.

AH-300-S

Zinc Finish

Medium Duty Cargo Tie Down

- Flush mount, medium duty cargo tie down.
- 1/4" Ring.
- High impact plastic cup provides anti-rattle feature and is ideal for FRP panels.
- 1500 lb. pull capacity.
- Specify AH-300-C for ring and clamp only.
- Overall diameter is 4-7/64."

AH-300-F-KIT

Zinc Finish

Stainless Steel Cargo Tie Down

- Stainless steel construction.
- Butt welded ring and clamp.

AH-300-U-SS

Unpolished Stainless Steel

Inset Cargo Ring

- Designed for flush mount in 3/16" to 3/8" plywood lined vans.
- The low profile reduces freight damage and two-point mounting reduces installation cost.
- Utilizes maximum wall strength by fastening directly to trailer post.

AH-39-FS

Light Duty Cargo Tie Down With Spacer

- Light duty tie down with 1/4" ring.
- 1200 lb. pull capacity.
- Steel/plastic construction.
- Overall diameter is approximately 3-1/2."

Rigid Repair Panels

- Reduces installation costs by 60%.
- Easy, fast application saves installation time by 57%.
- Hand injuries virtually eliminated because there is no metal cutting.
- Sealant assures aggressive grip and superior adhesion with leak proof and attractive results.
- No harmful VOC's.
- Bytut sealant is asphalt and solvent free.
- Panels are of 40 mil. aluminum.

1T3340-W6	6" x 6"	White
1T3340-W12	12" x 12"	White

Toggle Switch Kit

- Consists of No. 5558 toggle switch mounted in recessed dishpan to prevent accidental operation.
- Dishpan fits into 2" diameter hole
- Has three 7/32" diameter mounting holes.
- Receptacle is polymer plastic.

W5543-KIT #5558 Toggle Switch With Recessed Dishpan

- Two positions, S.P.S.T., Off-On.
- Rated 6 AMPS-125V, A. C., 3 AMPS-250C, A.C.
- U.L. and C.S.A. approved.
- Two screw terminals.
- 15/32 Stem Diameter.

W5558 Two Position Toggle Switch

W5559 Two Position Toggle Switch W/O Screws In Terminals

W5543-R Recess Cup

Adhesive and Corner Tabs

- For a clean professional corner assembly on any dual durometer door gasket.

3658A-1 Corner Tab Adhesive 8oz. Can

3658T-1 3-1/16" Outside Corner Tab

Stripping, Sealing and Roof Bow Tapes

Closed Cell Neoprene Stripping Tape

- Closed cell neoprene rubber stripping.
- Adhesive coated.
- Protective cover is easily stripped off for immediate bonding to any clean surface at point of application.

Stock No.	Length	Thickness	Width
